A Petition to Members of City Council

Withdraw from ICLEI!

- Please introduce, cosponsor, and vote for the city withdraw and terminate its membership in ICLEI - Local Governments for Sustainability (formally known as the International Council for Local Environmental Initiatives).
- Don’t just end membership in ICLEI, but also reverse all ICLEI recommended laws, ordinances, regulations and zoning codes already in place.

In order to safeguard our private property rights, civil liberties, individual freedoms, and to protect our way of life from the mandates of the United Nations and its Local Agenda 21 program, I respectfully urge and encourage you to official withdraw the city from being a local government member of ICLEI – Local Governments for Sustainability.

Respectfully,

(Name) 
(Mailing Address)
